To THE COMMISSIONER OF BUILDINGS:

Application is hereby made for approval of the following AMENDMENT to the specifications and plans filed with the above numbered application, with the stipulation that this amendment is to become a part of the aforesaid original application and subject to all the conditions, agreements and statements therein contained.

(Signed) Gerson J. Hirsch
Applicant

Answering Objections of 2/15/37

requested

- 1.- Reconsideration is respectfully requested to permit the present ventilation of water closets by means of lot line windows to remain. Please note that these windows open on a court of the next building which is well above minimum dimensions; that they at present ventilate the water closets now serving two apartments; that they will henceforth ventilate water closets serving only one apartment; that no C. O. will be requested; that additional water closets will be legally ventilated; and that letter from Owner is attached hereto agreeing to install legal means of ventilation should the lot line windows ever be blocked up or become otherwise inadequate for good ventilation.
- 2.- Toilet ducts now shown on plan as properly fire retarded with metal lath and cement plaster. Also shown as provided with grilles, dampers and fusible links. Doors now shown to have louvres of proper area, all as required by Board of Buildings Rulings.
- 3.- Plans now show cellar ceiling will be fire retarded with metal lath and cement plaster.

OK
2/18/37

NOTE: No C. O. will be applied for. All alterations shown are of such nature as to merely make building comply with such sections of the Mult. Dwelling Law as have become mandatory, and contemplate no change from the present occupancy with regulations of

the tenement house dept.

G.J.H. 2/24/37

NOTE—The applicant must not use the back of this sheet. If more space is needed, additional sheets must be used. No item must be continued over to another sheet; but each item must be complete on the sheet on which it appears. APPLICATION No. 311 1937

LOCATION 180 Avenue B

BLOCK LOT

WARD VOL.

DISAPPROVED Feb 15 1937

with the following OBJECTIONS:

CAH:RF

Sir:

Your application for a permit on the above location has been rejected as an examination of your drawings and applications show that corrections must be made in the form of Amendment or subsequent statements in triplicate, typewritten and filed with original papers, as they do not conform with the Laws, Rules and Regulations for the following reasons:

- 1- Toilet ventilation by means of lot line windows is not acceptable.
- 2- Toilet ducts individually or in groups must be fire-retarded with 1" P.C.M. on metal lath. Note fire retarding of partitions surrounding ducts does not satisfy this requirement. Ducts must be provided with grilles, dampers and fusible links and doors to water closets must be ventilated as required by rules of Bd. of Bldgs.
- 3- Method of fire retarding cellar ceiling is not acceptable unless applied upon present plaster in good condition. See rules of Bd. of Bldgs.

NOTE: No C.O. will be issued unless building is made to comply with the mandatory requirements of Art. 7 MBL and all rules of Bd. of Bldgs.

February 9th, 1937

Mr. Samuel Fassler, Commissioner,
Bureau of Buildings,
Borough of Manhattan

Dear Sir:

Confirming statements made on application of the architect for alterations to my building at #180 Avenue B, I respectfully request that present lot line windows opening on large court of adjacent building, and now ventilating water closets on all typical floors be permitted to remain in use for the time being.

I hereby agree, if this request is granted, to install approved system of ventilating ducts and skylight at any future time when this adjacent court may be closed up, or when said windows may be otherwise caused to be impractical for adequate ventilation.

Yours very truly,

Josephine B. Weeks
