- 1. Request Reconsideration to accept removal of iron stairs as shown. Note that there is a fire escape at the front of the adjoining building and a stair at center of same and that access to both is provided from the mezzanine. The iron stairs from the mazzanine to the church floor were installed after the erection of the building when it was decided to use the mezzanine as a class room. As this use is discontinued, it is requested to remove the stairs. Not permitting its removal would constitute a hardship in that the church is in the process of being refinished and the stairs form a very bad eyesore, besides taking away valuable space from the auditorium.
