Form No. 1 -- 1900.

Applicant must indicate the Building Line or Lines clearly and distinctly on the Drawings.

Department of Buildings of The City of New York.

Fresident of the Board of Buildings and Commissioner of Buildings for the Boroughs of Manhattan and The Bronx.

O a gard

JOHN GUILFOYLE,

Commissioner of Buildings for the Borough of Brooklyn.

Office, Borough Hall, Borough of Brooklyn.

ДАМІЕЦ САМРВЕЦЬ,

Commissioner of Buildings for the Boroughs of Queens and Richmond.

Office, Richmond Building, New Brighton, Staten Island.

Borough of Richmond.

Branch Office, Town Hall, Jamaica, Long Island,

Plan No.

APPLICATION FOR ERECTION OF BRICK BUILDINGS

Application is hereby made to the Commissioner of Buildings of The City of New York, for the Borough Men tralla for the approval of the detailed statement of the specifications and plans herewith submitted, for the erection of the building herein described. All provisions of the Building Code shall be complied with in the erection of said building whether specified herein or not. Michael Ber sten. THE CITY OF NEW YORK. State how many buildings to be erected. Tax What is the exact location thereof? (State on what street or avenue; the side thereof, the number of feet from the nearest street or avenue, and the name thereof)... 30 × Will the building be erected on the front or rear of lot?... How to be occupied ?... That r as If for dwelling, state the number of families in each house. 32'6 feet rear; 101'7' Size of lot? Give diagram of same. 6. Size of building? 376 feet rear; 85 / Teet deep. Size of extension ?feet front; feet rear ; Number of stories in height: main building?..... Extension ?... Height from curb level to highest point: main building?... feet. Extension? What is the character of the ground : rock, clay, sand, etc. ? 8. Will the foundation be laid on earth, rock, timber or piles? Saute Will there be a cellar? What will be the base, stone or concrete? Carcut: If base stones, give size and thickness, and how laid 72 . If concrete, give thickness 12 ×17 wide the wells. 11. What will be the depth of foundation walls below curb level or surface of ground? Of what will foundation walls be built? Shop y slow Give thickness of foundation walls: front, 2 o inches; sides, inches; party, inches. 14. Will interior supports be brick partition walls or piers, iron columns or wooden posts? (live size of same... 15. If piers, give thickness of cap stones or plates..... bond stones or

| | | New York City, Aug. | 29 th/29 192 |

To THE SUPERINTENDENT OF BUILDINGS:

Application is hereby made for approval of the plans and specifications herewith submitted, and made a part hereof, for the ALTERATION of the building therein described,—with the understanding that if no work is performed hereunder within one year from the time of issuance, this approval shall expire by limitation as provided by law; and the applicant agrees to comply with all provisions of the Building Code of the City of New York, and with the provisions of all other laws and rules relating to the alteration of said building in effect at this date.

Work under this approval will not be commenced until a permit has been secured, application for which will be filed with the Superintendent of Buildings, accompanied by satisfactory evidence that compensation insurance has been obtained in accordance with the provisions of the Workmen's Compensation Law.

NOTICE—This application must be typewritten and filed in quadruplicate. All proposed work under this application must be shown on plans and section. All vertical lines of soil, waste, leader and refrigerator pipes should be designated by numbers or letters. A soil or waste line and its attendant vent line may be considered as one stack, and so numbered or lettered. In alterations, NEW WORK ONLY should be specified. When new fixtures are to be connected to present lines, the location and diameter of said lines must be shown on the plan. Minor alterations in connection with work described may be included in this form.
