REPORT UPON APPLICATION.	
BUREAU OF INSPECTION OF BUILDINGS,	
NEW YORK, July 7th 1890	
To the Superintendent of Buildings:	
I respectfully report that I have thoroughly examined and measured the building, walls etc.,	
named in the foregoing application, and found the foundation wall to be built of Stone 20, front 24	**
inches thick,feet below curb, the upper wallbuilt ofinches thick,	
55 feet deep. 52 feet in height, and that the mortar in said wall is	
hard and good, and that all the walls arein good and safe condition.	
What is the nature of the ground? Louin	
What kind of sand was used in the mortar? queed t sharp	
How is or was the building occupied? I fruate Dwelling,	
(The Inspector must here state what defects, if any, are in the walls, beams or other part of the building.)	
The " state the thickness of each wall in each and every story.)

New York November 20th, 1910.19 adolph 7. Miller,

Supt. of Place. 7:20 Fourth tve., Oity of New York,

Doar Sir:

Several days age I amilied at your demanticant to amend also and amiliarity #2507, alteration 1879 promises #213 Fast 18th St., but was informed by plan clurk that the same had been termed in completed and that same could not be amended. I have amended blan on file at Temperat Pours Bont. for these promises, amendment consist a request to be permitted to support promosed extension at read. by postingous walls include af piers as originally somewed. This smend out was disapproved stateing that it was necessary to fine similar emoderat at your Bursau. I therefore respectfully ask that I be remaitted to make such a sendment to the plans in your describent.

Thanking you far consideration of this actter and avoiding you focusion. I con-

Rosmectfully yours,
