Notice.—In making application for the approval of plans for light and ventilation of new tenement and lodging houses, or for alterations of existing tenement or lodging houses, or to convert a dwelling house or other class of building into a tenement or lodging house, the following drawings must be furnished: Plans of all floors, including cellar and basement, and, if necessary, transverse and longitudinal sections. All plans must be drawn to a uniform scale, not less than one-quarter inch to the foot, and be on tracing cloth or cloth prints, and each shaft or court properly resignated and dimensions of same plainly marked thereon.

The approval of this application is in accordance with section 4 of the Building Code, to wit: "Any approval which has been issued by a Commissioner of Buildings pursuant to the provisions of law, but under which no work has been commenced within one year from the time of issuance, shall expire by limitation.

APPLICATION is hereby made to the Commissioner of Buildings for the Borough of Manufacture and the Brough of The City of New York, for the approval of the plans and specifications herewith submitted for the Light and Ventilation of the building herein described.

The applicant agrees to be governed by the rules and regulations of the Board of Buildings, and to comply therewith and with every provision of law, whether herein specified or not.

#### DIMENSIONS OF LOT, SHAFTS, YARDS, ETC.

NOTE.—If several buildings and lots are of same dimensions throughout, one statement is sufficient. All computations must be made on level of first story, except for corner buildings which are to be made at the second floor level. Shafts less than twenty-five square feet in area will not be computed as uncovered space.

Note. Section 1318, Chapter 378, Laws of 1897, restricts the occupancy of any tenement or lodging-house on any ordinary city lot to sixty-five per centum of the area of said lot, when such lot is not a corner lot, and empowers the Commissioner of Buildings to extend such occupancy to seventy-five per centum of the area of the aforesaid lot, provided "the light and ventilation of such tenement or lodging house are, in the opinion of the Commissioner of Buildings, materially improved." The same section also provides that no tenement or lodging house shall occupy more than ninety-two per centum of the area of a corner lot above the first story.

Percentages of lot area allowed under this provision of law are as follows:

Up t	90 fee	et in he	ight	75 per cent. 73 "	Up to	120	"	ght69 p	"
66	100	4.4	*************	71 '	Above	120	**	$\dots$	6.6
Up t		_	area of corner lots alght					as follows:	er cent.
- 44	90	**	*************		66	140	4.6	80	4.6
44	100	.000		88 "	"	150	44		46
**	110	**	*****	86 "	Above	150	44 1/4		"
	120	44		84 ''	Į.				

For buildings greater than 50 feet frontage, the former tables of percentages will apply to that part which is in excess of 50 feet, and the latter scale for that which is under 50 feet.

While the uncovered area cannot be less than the above, it must be greater where required by the further regulations for shafts and fixing distance required at rear.

No. 1, 3/2 x 105/4 = 3.7/2. No. 1, 3/2  " 2, 3/2 x 38/2 13.7/4 " 2,  " 3,  " 4,  Front \ 1.37 x 30 = 4.12/1  Yard, \ Rear \ Rear \ Rear \	" 2,3.6" x 38.6 137.3/2 " 3, 4:0x 38.0 = 152. " 4,5.4. x 13.2" = 70.4/2	4
Side Yard, \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \	ventilating Shafts, ventilating Shafts, etc.  Los lafts House, 30 x 896 = 2250  Lot, 30 x 1034 3097  Per cent. of \ less Itanu.	15/ 36
Remarks		

The first tier of floor beams above the cellar, if of wood, in all dwelling, tenement or lodging-houses shall be covered on the under side with plaster-boards, wire or metal lath, and plastered with not less than one coat of mortar on same, or such other protection as may be approved by the Commissioner of Buildings.
